Record your story

Have you been promising yourself that one day you'll sit down and write the family history? Are you struggling to find the words, the time or even the energy to get started?

Rather than spend years trying to write it down allow seasoned ABC radio producer, Michaela Andreyev, to interview you in the comfort of your own home.

Capture the story of your forebears, reminisce about your own life and share a little of what you've learnt along the way.

It's private, enjoyable and life-affirming.

Success Stories

"I live in England so Mum's recording is priceless. Michaela wove in some of my own piano playing which made it very personal.

Allan, Bath

Wow! So many stories I hadn't heard... To capture my true mum, her voice, thoughts, humour, laughter, tears was remarkable. I'm so grateful."

Nikki, Frenchs Forest

"Michaela quickly put me at ease and I was enjoying myself in no time!"

Neil, Aldgate

What to expect

I provide a bespoke life story interview service like no other.

Hours of meticulous consultation and research before we begin recording ensures I fully appreciate your unique story.

An extended 2+ hour interview is then conducted in the comfort of your own home at your own pace.

Back in my studio, your recording is carefully edited, animated with around 100 of your treasured photographs and underscored with the type of music you love.

Your memoir is delivered to you on a USB with a download link for family and friends to enjoy and cherish for generations.
